

manufaktur guide

founding year 2011

welcome to the manufaktur für visuelle kommunikation!

we are a small family owned advertising company specializing in design, production and execution in the areas of advertising technology, pr & communication, copywriting & editing, 2d & 3d visualizations, animation & film.

what we do

your partner for the complete
company appearance

**we support large and small companies, start-ups
and single proprietors in implementing their
corporate identity in line with their goals.**

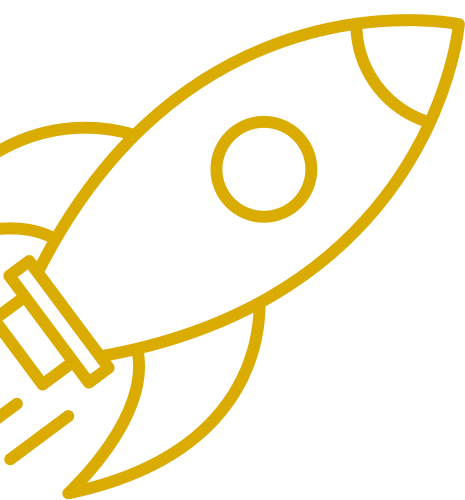

we help you with the creation or adaptation of
your logo and corporate design, design your print
media, such as business cards, stickers, flyers,
brochures and stationery.

in addition, we take care of office lettering, shop
window lettering as well as car lettering - in other
words, the creative and technical
implementation of all kinds of advertising!

supplemented with the right pr measures and
communication tools, social media profiles, 2d-
visualizations or 3d-animations, image films or 360-
degree shots, we put your company in the
spotlight.

design, production, execution and installation
are taken care of by us in an all-round package.

who we are

for every sector a
specialist

our core team consists of five different specialists.

we strive for the same goals and have the same visions. we know each other well and therefore complement each other optimally in the respective areas.

the team is extended by external freelance specialists, with whom we have close and long-standing partnerships, according to demand and customer requirements.

business partnerships with specialists from cross-industry professional fields represent a mutual enrichment for us, which we can pass on to our customers.

reto

business founder and owner

as a trained lettering and advertisement designer, reto is an all-rounder in the field of advertising and advertising technology. thanks to years of experience in advertising ateliers and swiss tv studios, he is used to extensive and spontaneous realizations as well as productions. no one applies foils as carefully and in unusual places as he does. his manual dexterity and his special feeling for proportions more than benefit the design and execution of visual communication.
